SUMMARY

Frontend Developer with a Computer Software Engineering degree and several years of experience building responsive, accessible web applications with React, TypeScript, and Next.js. Experienced across the full stack with Node.js, Express, and REST APIs, and comfortable working with Drupal and WordPress. Proven record of shipping live production sites for clients in Germany and Iran. Certified in professional German (telc Deutsch für den Beruf B2). Seeking a frontend developer role in a collaborative, product-focused team.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap

Backend & Data: Node.js, Express, REST APIs, MongoDB, SQL / NoSQL basics

CMS: Drupal (Twig templating), WordPress

Testing & Tooling: Jest, Git, GitHub, Docker (basic), CI via pull-request workflows

Design & Practices: Figma, Responsive Design, Accessibility, Design Systems, Agile / Scrum

WORK EXPERIENCE

Frontend Developer (Internship)

Oct 2025 – Jan 2026

Calvergy — Aachen, Germany (Remote)

- Rebuilt core sections of the production website (Hero, Advantages, How It Works) in React, Next.js, and TypeScript, improving layout consistency and readability across mobile, tablet, and desktop breakpoints.
- Developed reusable, scalable frontend components and refactored legacy code to improve long-term maintainability and ease of extension.
- Implemented English/German localization using Next.js internationalization, delivering full bilingual coverage across the site.
- Delivered features through a collaborative Git workflow with pull requests and code reviews, earning a “sehr gut” (very good) written reference for reliability and code quality.

Freelance Frontend Developer

2024 – 2025

Self-employed — Karlsruhe, Germany

- Designed and shipped a responsive company website for Adler Reinigung (adlerreinigung24.de) in React, delivering a live production site for a paying client.
- Built and delivered farsifilmfestival.de, a paid WordPress festival website, focused on responsive layout and accessible, easy-to-maintain content structure.
- Developed CineBoard, a full-stack movie-discovery app (React 19, TypeScript, Node.js/Express, MongoDB) featuring JWT authentication and favourites, deployed to Netlify and Render.
- Engineered a custom useDebounce hook for live movie search, eliminating redundant TMDB API requests on every keystroke and improving responsiveness.

Full-Stack Web Development Bootcamp

Dec 2023 – Apr 2024

WBS Coding School — Berlin, Germany

- Completed an intensive 680-hour full-stack program covering React, Node.js/Express, REST APIs, SQL/NoSQL databases, unit testing, and Agile methodologies.
- Built a full-stack capstone project connecting a React frontend to a Node.js/Express REST API with a database backend.

Frontend Web Developer

2020 – 2023

Naarvan Meta Communications — Kerman, Iran

- Reduced annual client maintenance costs by up to 35% by developing and maintaining three internal platforms (Project Management, Monitoring, Energy Management) in React, TypeScript, and SCSS.
- Integrated Drupal CMS into decoupled projects using Twig templating, delivering content-driven interfaces for multiple client websites.

- Improved performance and accessibility across production UIs by building optimized, responsive components that increased user engagement.
- Accelerated team delivery by driving code reviews and pair-programming sessions within a cross-functional Agile environment.

Content Creator & Web Specialist

2016 – 2020

Rahavard Digital — Kerman, Iran

- Increased organic traffic by 40% by producing SEO-optimized web content and collaborating with designers on user-friendly interfaces.
- Partnered with developers to design accessible, responsive landing pages aligned with brand and content strategy.

SELECTED PROJECTS

CineBoard — Full-Stack Movie App cineboard-app.netlify.app

- React 19, TypeScript, Node.js/Express, MongoDB. Movie search via the TMDB API, JWT-authenticated user accounts, and a saveable favourites collection, with a custom debounced-search hook.

Adler Reinigung — Business Website adlerreinigung24.de

- Responsive React website built and delivered for a real cleaning-company client, focused on clear structure and mobile-first design.

EDUCATION

Full-Stack Web Development Certificate

2024

WBS Coding School — Berlin, Germany

B.Eng. Computer Software Engineering

2007

Khayyam University — Mashhad, Iran
